

## Deddington through Facebook – October

We'd settled into the relatively relaxed tier 1 routine with life sort of 'normal' but then, right at the end of the month, Oxford City, was moved into Tier 2. The rest of Oxfordshire held its breath. But then there was the dramatic news that the whole of England was to go into a national lockdown for four weeks from 5 November. Local reaction to that next month.

**Deddington Library** was  sharing a COVID-19 update.  
14 October at 09:36 · 🌐

As you know, Deddington Library is closed until further notice due to the COVID19 pandemic.

All loan periods have been extended until 2nd November, when all loans must be returned or renewed, otherwise fines will start to be incurred — if renewing, you still have 3 renewals available to you, so don't renew until nearer the 2nd November if you can't return then sooner.

Pop over to the website for details of what to do and how to do it <https://www.friendsofdeddingtonlibrary.org/covid19-news> —  sharing a COVID-19 update.

## Remembrance Sunday 8 November

*Plans are subject to any changes in government regulations*

There will not be a Parade. A Service of Remembrance and a Two-Minute Silence will be held at the War Memorial, in the church if wet, led by the Vicar with the Branch President, Chairman and Standard Bearer, Parish Council Chairman and the Bugler as the only six people attending.

**No organisations should attend or lay wreaths.**

This will be done by the Branch Chairman and the Parish Council Chairman on your behalves.

Social distancing must be strictly observed by anyone watching from the churchyard.

Poppies, pins, crosses etc can still be obtained from several locations including the church.

Please donate generously in this most difficult of years.

Robert Forsyth

An enormous thankyou to everyone who donated nearly a thousand £s so generously at the Market yesterday. Well over twice as much as last year and will help offset no street collecting this year. Tins and poppy trays are in the Church, the Deddie Arms, Crown & Tuns, Health Centre, Flower Shop, Co-op, Eagles, Hair Razors & Bengal Spice until 11 November. Please continue to be generous.

## Latest coronavirus hotspots for Oxford and Oxfordshire

By Erin Lyons | [@OxMailErinL](#)  
Health reporter

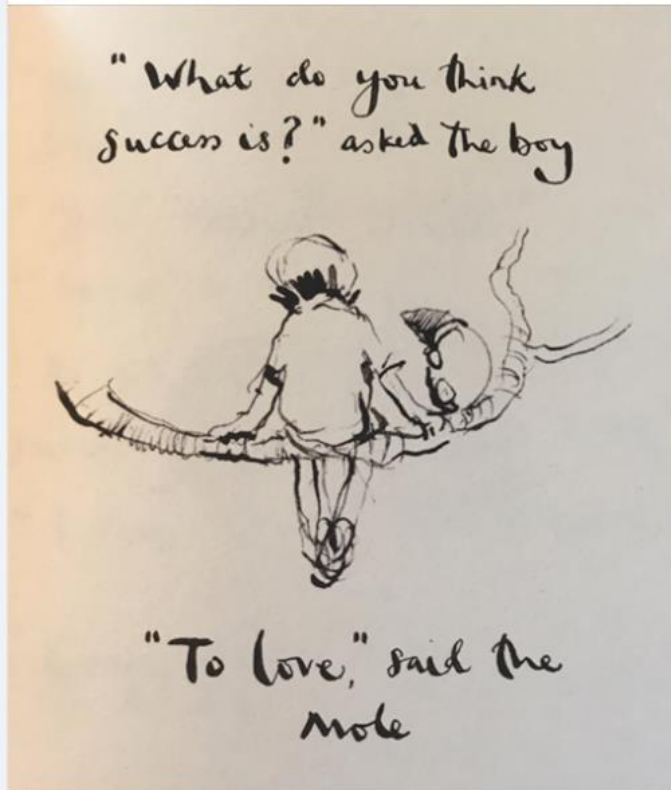

The map also reveals how cases have been rising across the **county**, which has this week reached 'red alert', meaning there are more than 50 cases per 100,000 people.

Across the county the other areas with more than two cases during this period are;

- Islip, Arncott & Chesterton 12
- Banbury Grimsbury 12
- Deddington, Steeple Aston & Heyfords 9

**Deddington and Parish Covid-19 Response Team**

18h · 🌐

Hello All - it has been a while since we have posted here. Much has changed and in many ways, much has stayed the same. We have settled into a different way of working, living and interacting. Deliver services have been ramped up, neighbors, family and friends continue to help out. The Deddington News is back in print for everyone and specially those not on-line.

The Covid Response Team are still here. We are standing by if needed and we are planning how we can use the network of volunteers in the coming months. If you need to call us, you have our details.

We don't know the future but what we do know is that we are resilient and creative and responsive.

Personally, it has been a privilege to have worked with this group and for this Parish. Thank you all.

Covid and NHS locally. E mail received today.

Dear Colin

Oxfordshire health and care system briefing

A briefing from the Oxfordshire health and care system regarding COVID-19 is now available, which contains information which you may find useful.

The Oxfordshire Health and Care System, is made up of Oxfordshire CCG, Oxford Health NHS FT, Oxfordshire County Council and OUH.

OUH COVID-19 statistics now published every Thursday  
From Thursday 22 October, the Government is publishing weekly data on the number of COVID-19 cases in all NHS trusts and information on daily admissions up to the preceding Tuesday. As of Tuesday 20 October the data for OUH shows that we had 16 patients with COVID-19 in the Trust. OUH is line 444 on the spreadsheet and the total number of beds occupied by COVID-19 patients can be found on the All beds COVID tab. You will need to scroll right to see the latest data.

Helping patients keep connected with friends and family

Since June, OUH has adopted the 'Rule of One' approach to visiting – one visitor per inpatient for one hour once a day. This is reviewed regularly and there are some limited exceptions, for example in Maternity and Paediatrics – full details are on our website.

Patient and staff safety are our priority and so visiting restrictions are still in place – including in Outpatients departments, Emergency Departments, and Emergency Assessment Units, where patients should attend on their own unless there are exceptional circumstances.

We appreciate that restricting visiting is difficult for our patients which is why we have worked hard to bridge the gap and provide a range of 'virtual visiting' alternatives:

- Friends and family can still call our wards which have mobile phones which can be taken to the bedside
- We also have some tablet devices which are securely preloaded so patients can video call friends and family
- Our 'Keep in touch' service means friends and family can send messages and photos to their loved ones by emailing [keepintouch@ouh.nhs.uk](mailto:keepintouch@ouh.nhs.uk) – our staff print them out and deliver them to patients on the wards

The poster is orange with white and black text. It features the NHS logo in the top right corner and the HM Government logo in the top left. The main heading is 'LOCAL COVID ALERT LEVEL HIGH' in large, bold, black letters. To the right of the text is a large graphic of four concentric circles in shades of orange, with the innermost circle being the darkest. Below the heading, under the heading 'YOU MUST:', there are four bullet points with right-pointing arrows: 'Not meet people socially anywhere indoors', 'Only meet people outdoors in groups of up to six', 'Work from home if possible', and 'Reduce the number of journeys you make'. At the bottom, there is a line of text: 'Find all local restrictions and laws at [gov.uk/coronavirus](https://gov.uk/coronavirus)' and a small box containing the slogan 'STAY ALERT · CONTROL THE VIRUS · SAVE LIVES'.

⚠️ Oxford City to move into tier 2 restrictions from Saturday 31st October ⚠️

The rest of Oxfordshire will remain under the relatively relaxed Tier 1 restrictions for now.

According to Oxfordshire County Council, the Covid rates across the rest of the county continue to rise.

Cases per 100,000 are 151.5 in Cherwell, 92.2 in South Oxfordshire, 91.2 in Vale of White Horse and 109.4 in West Oxfordshire.

The decision to keep the rest of Oxfordshire in Tier 1 has been taken by Government despite advice from the county's director of public health and the backing of local political leaders of all parties, local business leaders at Oxford Local Enterprise Partnerships and representatives of local health trusts.

Ian Hudspeth, Leader of Oxfordshire County Council, said: "The continued rise in numbers across the county has once more been discussed with central government and Public Health England and it has been agreed that this is the appropriate moment for Oxford move to tier 2.

"However, we remain seriously concerned about the rise in the number of cases across the county, and not just Oxford. We are deeply disappointed that despite clear evidence showing the virus is now spreading to older and more vulnerable communities across the county, our request that Oxfordshire as a whole should move to tier 2 was not approved.
