

A List of parcels of land from the Deddington Quality Book 1807

By Jon Malings

The parcel of land often has a specific name, e.g “Andrews Hades Furlong”. There are other parcels like “Furlong east of Banbury Turnpike” which I have listed as “Banbury Turnpike (Furlong east of)”. A third type of description may involve two names/locations, e.g. “Bakerstyle Furlong into Crowslade”. I’ve made two entries for this type: “Bakerstyle Furlong into Crowslade” and “Crowslade (Bakerstyle Furlong into)”

All the land is listed under 1 of 21 localities or areas which are shown in Column 2. This can be a useful indicator of the location of the parcel, or even the area. For example, there are five entries for parcels of land with “Bears Hill” in the description. Two are in Great Meadow and three are in Harbours Hill. This presumably tells us that Great Meadow and Harbours Hill adjoin and that Bears Hill is close to the boundary.

Column 3 shows the page number in either the PDF or transcription of the notebook, e.g. 21L(ef) or 19R(igh).

Some brief definitions:

Lands: usually single strips or pieces of land of half acre

Yerds/Yards: pieces of land about one quarter acre

Butt: A short strip, not the usual furlong in length

Smattin: unknown

Hades: land around the edges of the furlong used for haymaking

Slade: a shallow valley
