DEDDINGTON VOLUNTEER FIREBRIGADE.

-----

Dear Sir,

This Brigade has been placed on Special & Action List by the Chief Constable of Oxfordshire and we are now continually on duty, night & day until further notice.

I have removed manual and Hose Cart from Fire Station to lock up Garage in my yard & fixed up harness room for the men. 4 men are on duty all night at the telephone.

Can any allowance be made for light & Coal Please ?

The Brigade carried out wet Drill Thursday evening & Two 50ft lengths Hose Burst, can these be replaced immediately with instantaneous coupling?

One Dozen leather couplings washers urgently required.

Fireman W Compton has left the District Can I appoint another man in his place or what procedure am I to take on the matter ?

As We have no mechanical pump yet we are using the manual, what arrangements shall I make for payment of extra helpers for pumping should the occasion arise?

Please give the matter your early consideration.

Yours Faithfully.
