

Enclosure of common fields 1808

The surviving mediaeval open or common field system, whereby (unless and to the extent previously consolidated) farmers cultivated scattered strips of land, was increasingly seen as anachronistic and inefficient by the late 18th century.

In Deddington, one of the consequences was that there were various farmsteads located in the town (including Earl's, Great House (Castle House), Blount's, Savage's, Maund's, Park and Appletree) rather than in the fields.¹

Increasingly, therefore, larger landowners came together to procure the rationalisation of land holdings in their parishes through inclosure awards facilitated by private or general Acts of Parliament.

The open or common fields in the Parish of Deddington, which comprised 158 yardlands (c.2,844 acres)² out of a total area of 4,159 acres, were enclosed under an Inclosure Award in 1808.³ This involved the redistribution of landholdings by the Deddington Inclosure Commissioners so that the various holdings of the larger landowners were consolidated into single blocks of land which could be cultivated more efficiently. The convenience of smaller landholders was less of a consideration.

According to the Award, 54% of the land in the Parish was owned by the lords of the three manors in the Parish (all non-resident), and by two local attorneys, as follows:

988 acres	Rev. Robert Marriot, lay rector, ⁴ as lessee (from the Dean and Canons of St. George's Chapel, Windsor) of Windsor manor and the rectory, including 680 acres for the rectoral tithes and glebe.
398 acres	William Ralph Cartwright MP, of Aynho Park, lord of Duchy manor.
369 acres	Samuel Churchill senior, attorney, of Leadenporch House.
332 acres	Sir Henry Watkin Dashwood Bart., of Kirtlington Park, lord of Christ Church manor.
166 acres	William Appletree (or Apletree), attorney, of Blount's Farm (now Castle End and Monks Court/Applewood).

2253 acres (54%)

For more information about the Deddington enclosure award in 1808, please see:

In 1813 the proprietors and occupiers of estates in 7 parishes bordering the River Cherwell between Nell Bridge (between Adderbury and Aynho) and North Aston Mill were required to contribute to the cost of cleansing this stretch of river.

The schedule of contributions identified the following landowners in Clifton with land fronting the Cherwell:

William Ralph Cartwright

Samuel Churchill [junior]

Sir Henry Watkin Dashwood, Bart.

William East

Robert Kilby (or Killby)

William Merry

And we do hereby appoint a meeting to be held by us, at the King's Arms Inn, in Deddington, on Thurfdy the 15th day of September next, when and where all perfons who may be injured or aggrieved by the fetting out of fuch additional Roads or Ways, may attend and make their objections thereto.

Dated this 18th day of Auguft, 1808.

ROBERT WESTON,

JOHN DAVIS.

RIVER CHERWELL.

PROPOSALS

*for Contracts to cleanse the River between NELL
BRIDGE and NORTH ASTON MILL.*

THE Owners and Occupiers of Lands adjoining the River from Nell Bridge to North Aston Mill being desirous that such part of the said River should be scoured and cleansed in the most effectual manner, and as soon as the season will admit, any person or persons willing to contract for the due performance of the same, so that the said Works may be completed on or before the 20th day of November next, are hereby desired to deliver in their terms for completing the same, in writing, at the office of Messrs. Churchill, Field, and Weston, of Deddington, Oxon, on or before the 27th day of this instant August: and as some parts of the River will require more labour and greater expence than other parts thereof, the Proprietors have caused an exact admeasurement to be made of the several distances between the several and respective properties, to render it more easy and expeditious for the persons willing to contract for the completion of the said Work, to set forth in their Terms the Price per Chain of 22 Yards in the respective distances hereinafter stated, (finding all Materials and Working Tools) for well and sufficiently paring down the banks, taking off the projecting parts, and removing the same, together with the mud or soil, to the banks thereof, half on each side in equal quantities, or as near as can be, and at a sufficient distance from the River, to be safe from falling or sliding again into the same; and that no part of the paring of the banks, or the soil of the River, shall be thrown into the deeper parts of the water, but shall be wholly removed to the banks of the River, to the depth of four feet and an half from the level of the surface of the water, at a medium height between the high water and low water, except only where the bed of the River is a gravel, and were *[sic]* such depth cannot be obtained.
